RE: Application of United Utility Companies, Inc. for adjustment of rates and charges
and modifications to certain terms and conditions for the provision of water and
sewer service
Docket No. 2006-107-WS

Dear Mr. Terreni:

I am writing to you in reference to the public hearings held by the Commission in the above referenced matter. As you are aware, at the commencement of each hearing, United Utility Companies, Inc. ("UUC") made a continuing objection to testimony consisting of unsubstantiated complaints regarding customer service, quality of service, or customer relations issues. The basis of this objection was that the receipt and reliance on such testimony would deny the applicant due process of law, permits complaint procedures established under law and Commission Regulations to be circumvented and is not a proper basis to determine just and reasonable rates. In responding to the objection, the Office of Regulatory Staff ("ORS") requested UUC to submit a letter to the Commission setting forth the specific portions of the testimony to which the Company objects, the reason for the company's objection, and the identity of the speaker.

In accordance with ORS's request, UUC herein sets forth the portions of the testimony to which it objects. For the public hearing held in Spartanburg on July 17, 2006, UUC objects to the following:

Witness Joe Metts

Witness Freddie Gault

Page 31, line 22 through Page 32, line 2

Witness Ronald Holden

Page 33, lines 3-19

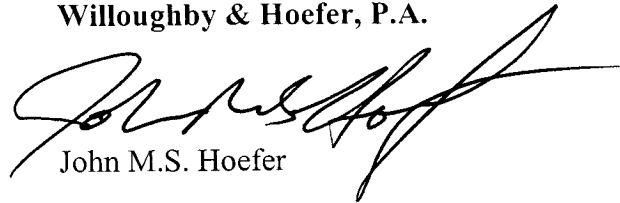

The objection to the above referenced portions of testimony is generally based upon UUC's assertion that these statements relate to unsubstantiated complaints. In most or all cases, the customers' testimony does not reflect the timeframe of the issues complained of, whether the customers complained to the company, or whether the customers filed a formal complaint with the Commission. Additionally, UUC has approximately 95 water customers and 1700 wastewater customers. Of these, only 55 customers, or 3.24%, testified before the Commission. This level of customer complaints is de minimis and immaterial and is, therefore, not an appropriate reflection of the Company or its services.
